

## AGM 23<sup>rd</sup> October 2019

Stephen Doughty  
Jeremy Lefroy  
Baroness Masham  
Baroness Barker  
Paul Williams

All Officers have been re-elected

- Need to work on getting another donor – Susie and Paul to work together on getting EJAF to fund us
- Officers signed off the financial statement. Susie and Paul to meet and go through the accounts file in more detail.

Potential inquiry ideas

- HIV Commission set up without BAME communities input
- Women and girls and HIV
- The role of men in heterosexual transmission
- Role of religion – lots of interest in that idea – Islamic relief, world vision, cafod (population APPG and LGBT APPGs also thinking of doing inquiries on religion)
- International mental health – mental health is a global issue not just western

## REPORT

Liz - Need to emphasise the importance of local authorities and support services. Schools/universities should also provide mental health support for PLHIV and in universities

Paul Farmer – MIND ask if he can do a foreword

Paul Williams – could be a bit more explicit in our recommendations about why HIV is special...IAPT is not fit for purpose, largely inappropriate

Stephen Doughty – thankyou to Susie for all your hard work.
